THE WEATHER.

The following is the weather forecast for the week beginning Sunday, Aug. 12, as sent out by the U. S. Weather Bureau, at Washington:
For Ohio Valley and Tennessee: Unsettled and showers first half; latter half fair; temperature below seasonal normal.

Welcome rains visited this section Sunday and Monday, being productive of great good, in combatting the heat, lowering the temperature and giving much-needed moisture to growing crops. Weather conditions are generally satisfactory.

TO ORGANIZE HOME GUARDS

It was stated here Saturday that efforts would be made by the State to organize a "Home Guard" composed of men who have been declared unfit for service in the regular military branches as a result of some minor disability, and for men past the military age.

A communication from Frankfort to interested parties here stated that a plan to this effect was being considered by the military authorities of the State. The men of Paris and Bourbon county will now have a chance to "rally round the flag, boys," without having to go into the trenches in a foreign land. Home Guards have been established in other States, and are doing a good work in helping the military authorities to maintain order. They will not be required to abandon their occupations, but will be subject to call the same as any other military body for police or other duty. The plan is said to have the sanction of Adjutant-General J. Tandy Ellis.

RAISE IN THE PRICE OF GAS.

The unusual advance in the price of all material and labor used in the distribution of Natural Gas compels us to advance the price of gas three cents per thousand cubic feet, beginning with the bills for the month of August.

This is the same price that will be charged in Lexington, Winchester and Mt. Sterling.

All gas bills sent out September 1 will be calculated on the following rate:

Forty-three cents per thousand cubic feet with a discount of five cents per thousand if paid on or before the fifteenth of the month.

BOURBON MAN WINS HONORS

Mr. Bishop Batterton, of Bourbon county, who has been at the home of his parents, Mr. and Mrs. A. B. Batterton, near this city for some time, on furlough was the winner of a competitive rifle shooting match held at Paris Island, South Carolina, where he has been stationed for several months.

Mr. Batterton is a member of Fifth Company B., First Regiment, Marine Corps, at Port Royal, S. C. In the contest in which Mr. Batterton won honors several thousand marksmen competed.

PARIS RIVALING BOONESBORO

"Why go to Boonesboro?" The question suggested itself to a group of Paris people Sunday when the relative merits of Stoner Creek and Kentucky River for bathing facilities were being discussed. Of course the discussion ended with a verdict in favor of the Paris end of the proposition.

A crowd of Lexington girls, accompanied by the properest of chaperones, came to Paris, Sunday, and spent the afternoon in picnicking and bathing in Stoner near "The Ford" one of the beauty spots of the prettiest stream in Central Kentucky. They were joined here by a party of Paris boys and girls, and from all accounts "Camp Daniel Boone" and "Boonesboro" had nothing whatever on the Paris bunch in the way of enjoyment. The water in Stoner Creek is clearer and purer, if that counts for anything, than that of the Kentucky River.

The afternoon was spent by other large parties in enjoying bathing above and below the Louisville and Nashville railroad bridge near the ice factory. John McDermott, manager of the Postal Telegraph office almost broke into the Carnegie Hero Medal Competition by rescuing a tall, lean, lank damsel in distress, but his well-known modesty prompted a suppression of the details.

B-4 FIRE Insure with W. O. HINTON & SON, Agts

EXPLOSION IN BIG PLANT CAUSES \$1,000,000 FIRE.

Two suspects were arrested within less than six hours after a half of the gigantic plant of the Aetna Explosives Company, at Gary, Ind., had been wiped out by fire. This plant manufactures all kinds of explosives, and furnishes many Kentucky and Indiana firms with dynamite and nitroglycerine, especially in the Kentucky oil fields.

The fire was still raging late Saturday afternoon and considerable damage was done by explosions. The loss may reach a million dollars.

NEW FLAG FOR POSTOFFICE

A new flag will soon float from the flagstaff on the Government Building to replace the old one. Postmaster J. Walter Payne received word Saturday that his requisition for a new flag had been honored, and that the bunting had been shipped to him. The new "Old Glory" will probably be thrown to the breeze to-day.

Now is up to the city of Paris to replace the flag on the City Hall and Fire Department, now reduced to a mere handful of rags, with a new flag, as good as its neighbors are floating!

Lost Bracelet.

Either Saturday or Sunday, somewhere on the streets of Paris, a plain gold bracelet. Liberal reward to the finder if returned to THE NEWS office. (14-tf)
